EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicants' Response, filed 01 June 2005, overcomes the rejection of claims 1 to 3, 19, and 21 under 35 U.S.C. §103(a) as being obvious over *Liu et al.* in view of *Brems et al.* Here, *Liu et al.* is not prior art. Applicants filed a certified translation in English as their foreign priority document. Customarily, a certified priority document is filed in the language of the original application, e.g. Japanese. However, as Applicants' certified priority document was filed in English, Applicants have already met the requirement for a translation of their certified priority document. Thus, Applicants' certified translation of their foreign priority document establishes an effective filing date of 30 June 1999, prior to the filing date of 15 September 1999 for *Liu et al.*, which no longer qualifies as prior art under 35 U.S.C. §103(a).

None of the prior art of record discloses or suggests the combination of calculating a distance between a point on a map represented by a user's input speech and a base point on the map, and then outputting an inquiry to confirm if the distance is above a threshold. Applicants' Specification, Page 4, states an advantage of avoiding unnecessary operations by erroneous recognition of an utterance for navigation in automobiles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
